Letter of Recommendation

Mr. Rolf Goebel
residing in
Freienhagen, District of Waldeck-Frankenberg,
State of Hessen, Germany

It is our pleasure to certify that Rolf Goebel has been employed by our publishing house on a project-related free-lance basis from 1994 to the present.

The tasks we entrusted to his care included organisation and management of costly research undertakings launched for the purpose of gathering material for new book publications and commercial video productions. In a particular case this involved heading a motorized expedition sent to Great Britain for, among other aims, sub-aqua and on-land photography, for which a team of six divers had been engaged. The project required several weeks stay in the UK, arranging for daily requirements in frequently changing settings, meeting and conferring with various individuals and organisations, as well as gathering relevant information and photographing for the works in question.

Rolf Goebel completely justified the trust placed in him in every instance. He has proven himself fully capable of taking on responsibility, assessing unfamiliar situations correctly, improvising when necessary to ensure the success of a mission, and caring for those in his charge. His assistance in project design has been of great help to us, no less his highly reliable attention to detail. We especially commend his initiative and untiring efforts to accomplish a given job. Beyond his organizational skill and leadership ability, Rolf Goebel's outgoing personality and friendly manner have continually been a valuable asset.

We welcome any further opportunity of working with Rolf Goebel, and wish him the very best in his endeavors.

Waldeck, July 1st, 1999
